

ADVANCING OUR REGIONAL ECONOMY

June 18, 2007

I am writing this letter in regards to the presentation "Capturing the Minds of your Customers" that Tony Rubleski recently presented to our Lakeshore Business Garden companies.

Tony has a wonderfully charismatic presentation style and is a wealth of marketing information. His program is interesting, engaging and he gives unique and practical tips that any company can implement into their marketing strategy. Our group was so excited that they began using his ideas immediately and have already had great results!

I highly recommend Tony Rubleski to any organization that needs to kick start their marketing approach. He definitely "captured the minds" of our group.

Sincerely,

Amanda Chocko
Marketing Manager
Lakeshore Advantage
